ARTIST | AUTHOR: CYNDI COON

## THE ENCYCLOPEDIA SERIES

Artist created zine from vintage 1950s, 1960s and 1970s encyclopedia sets

These zines are each a gathering of words and images used to tell a story. In this collection entitled The Encyclopedia Series, each volume requests that the reader interpret the content through their unique lens. Collage fragments and various encyclopedia sets from the 1950s, '60s, and 70's combine to offer new narratives. Contemporary magazine images, stickers, and packaging are also incorporated into the series. Inside the volumes are tales woven from words written in the past curated to resemble the future, creating a post-factual era encyclopedia set.
